

Titan LED 9W LED White

Product Datasheet

Description

IP65 Dimmable fire rated LED downlight for domestic and commercial applications, Outperforms 50W MR16 halogen, 80% energy saving compared to 50W halogen, 7 year registration-free warranty, Supplied with matt white bezel, Removable twist-on, twist-off bezel with option of six different finishes, Unique patented insulation resistance test feature, Optional remote emergency pack, 50000 hours average lifetime, Dimming systems originally designed for incandescent filament lamps need to be carefully considered. The design of our dimmable driver will operate with most inductive dimmers however some may require replacement. A list of compatible dimmers is available within the downloads section.
