Consumer Unit Recess Kits

Product Description

Introduction

These kits allow the BG Fortress Consumer Units to be recessed into the wall to reduce the footprint of the product in the room. This is ideal for locations where the consumer unit is on show.

After using the recess kit, only the cover and visor is immediately accessible so that the devices can be switched on or off.

Available for 16, 19 or 22 module consumer units, the kits are easy to assemble and install with a minimum of effort.

Manufactured from steel; the kit comes complete with fixings and instructions. Please note that the consumer unit is not included in this kit.
