

Modular Timer Datasheet MODST18 - Staircase Timer Switch

Construction and Features

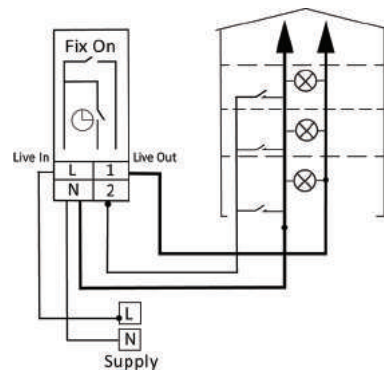

- Switch loads up to 16A
- Suitable for most lighting types
- Time delay switching
- Ideal control for stair lighting in communal areas
- Simple time setting: 30 seconds - 20 minutes

Technical Data

- Rated voltage: 230V
- Rated frequency: 50Hz
- Consumption: 1VA
- Contact capacity:
 - 16A/250V AC (COS Φ = 1)
- Electrical endurance: 10^5 cycles
- Mechanical endurance: 10^7 cycles
- Ambient temperature: -20 - +50°C
- Connection terminal: pillar terminal with clamp
- Connection capacity: rigid conductor 6mm²
- Installation:
 - On symmetrical DIN rail
 - Panel mounting
