

Modular Timer Datasheet

MODT180 - 24 Hour Analogue Timer Switch

Construction and Features

- Switch loads up to 16A
- Suitable for most lighting types
- Time delay switching
- Ideal control for stair lighting in communal areas
- Simple time setting: 30 seconds - 20 minutes

Technical Data

- Rated voltage: 230V AC
- Rated frequency: 50/60Hz
- Contact: 1NO
- Contact capacity:
 - 16A/250V AC (COS Φ = 1)
 - 25A/250V AC (COS Φ = 0.6)
- Electrical endurance: 10^5 cycles
- Mechanical endurance: 10^7 cycles
- 24 hour+ program
- 96 Segments
- Min. programmable interval: 15 minutes
- Ambient temperature: -10 - +50°C
- Connection terminal: pillar terminal with clamp
- Connection capacity: rigid conductor 6mm²
- Installation:
 - On symmetrical DIN rail
 - Panel mounting
