Microboil Wall mounted Boiling water unit (MBP2,MBP3,MBP6,MBP8,MBP16 - MBS3,MBS6,MBS8)

The Microboil is an advanced microprocessor controlled solution to the provision of boiling water for hot drinks in the workplace. It is available in sizes ranging from 2 to 16 Litres (12 to 100 cups).

Sophisticated electronics make sure that all Microboil units will automatically supply boiling water 24 hours a day, 365 days a year - even when the unit is automatically re-filling after heavy usage.

The 3,6 and 8 litre capacity units have a black tap and square edges and the 2 and 16 litre units have a red tap and rounded edges.

Features:

Key features of the Microboil Premier include:

3 Year on site warranty included

- Size range 2,3,6,8 and 16L to suit all applications
- Extremely compact design - the 2L is roughly the same size as an A4 sheet of paper
- 0.75mm thick copper tank with 5 year guarantee against corrosion
- Heavy duty catering style chrome tap with lock on option for large pots

The Microboil Standard shares the same robust design as the Premier but in order to provide a cost competitive alternative it has a one year on- site warranty and is available in 3,6 and 8 litre capacities.

The Microboil range features a compact design and is available in two styles depending on the capacity required.

Technical Data:

Model Reference	Units	MBP2	MBS3	MBS6	MBS8	MBP16
