

Hercules Control Panel

with LED/LCD Remote Keypads

A 10 Zone fully programmable control panel complete with either LED or LCD keypad options to give complete control over a professional system for home or business. Up to four remote keypads can be installed at up to 100m range and each can be named (LCD only) for easy identification. Each user can be programmed with any of four access level codes. Any zone can be programmed for security, panic, fire or 24 hour tamper and can be fully or partially armed. All the engineering codes and memory functions are protected by a non-volatile memory in case of power failure.

Features

- 10 fully programmable zones
- Onboard LED, blank panel, remote LED and remote LCD options
- 4 Access level codes
- Walk test mode
- LCD keypad option with 250 event memory
- LED keypad option with 16 event memory
- Non-volatile memory in case of power failure
- Programmable timer for entry, exit, and bell cut-off
- Battery capacity up to 12V 2.2Ah
- Simple to install and easy to programme
- Up to 4 remote keypads

Remote LCD Keypad

A stylish remote keypad for use with the Hercules LCD panel (Please note this will not work with the LED panel). Up to 4 keypads per system, the keypad has fully programmable zone names of up to 14 characters, a 250 event memory log with time and date stamp and the option to programme the installing contractor's name and telephone number to appear on the keypad.

Features

- Up to 4 remote keypads per system
- 2 x 16 character LCD display
- 250 event memory log
- Full arm, part arm, panic and chime facility
- Back-lit illumination

Remote LED Keypad

For use with both the LED panel and the LCD panel (in conjunction with the LCD remote keypad). Up to 4 keypads per system the keypad has fully programmable zones and a 16 event memory log.

Features

- Up to 4 remote keypads per system
- 16 event memory log
- Full arm, part arm, panic and chime facility
- Full LED status indication
