

Data Specification Sheet

RGBAMP – RGB LED AMPLIFIER

ML Accessories code	RGBAMP
Description	RGB LED amplifier
Overall dimensions (mm) Length – Width – Depth	L)115mm (W)63mm (D)23mm
Weight	135g
Output	RGB 3 Channels
Maximum output current	6A per channel
Maximum output wattage	216W (DC12V) – 423W (DC24V)
Voltage	12/24V DC
Driver required	Yes constant voltage
Compatible Drivers	ADP36LED. 24DC100. 24DC150
Driver connection	CONDC lead (Not Supplied)
Class	III
IP Rating	IP20
Recommended product location	Internal use only
Connecting Mode	Common anode
Cable connections	Screwless spring loaded terminals
Main Material	Aluminium body Polycarbonate ends
Working Temperature	-20°C - 60°C
Instruction sheet	Yes
Origin of manufacture	China
Quality assurance system	ISO 9001
CE Marking	Yes
Declaration of Conformance (held on file)	Yes
Warranty	1 Year
