

## MiniGrid Plate Switches (Modular)

The Click MODE range has recently been expanded to include a range of anthracite grey finished accessories to comply with current Building Regulations Part M.

Part M switches are developed largely as a modular range based on the large selection of switch modules available in the CLICK MINIGRID Module range. Simple, single screw fixing of modules offers the simplest possible means of installing and replacing modules.

#### **Additional Information**

Ensure that the mains supply is isolated before commencing installation and refer to the circuit diagram with the relevant product.

Bare earth cables must always be covered with appropriate sleeving and wired to the earth terminal.

All white moulded accessories are manufactured using Urea Formaldehyde, which has similar inherent properties to antimicrobial additives that inhibit the growth of infectious diseases. All products were independently tested and achieved a 99.9% kill rate across all four types of the strains of bacteria - MRSA, E-Coli, Salmonella, and Klebsiella Pneumoniae.

CMA512AG requires (2x) GR100 MiniGrid Module Yokes. These plates are designed to be used with specified backbox WA512.

CMA518AG requires (3x) GR100 MiniGrid Module Yokes. These plates are designed to be used with specified backbox WA518.

Interchangeable with modules in the MINIGRID system
