

# CLICK<sup>®</sup> MINIGRID

## 12 Gang & 18 Gang MiniGrid Plates & Accessories

# 12 Gang (2 tier)

# 18 Gang (3 tier)

The MiniGrid 12 & 18 gang cover plates are the latest additions to the CLICK MiniGrid range of accessories. The cover plates are offered in a variety of colour finishes. Standard CLICK MINIGRID modules offer simple, single screw fixing to the yoke which greatly facilitates the assembly of up to 18 different switching functions on a single plate.

The furnished plate shown contains 8 x single width and 2 x double width MiniGrid modules. The yoke 'GR100' (x2) is required to mount the MiniGrid modules into prior to assembling the front plate.

Simple, single screw installation of the modules on the yokes allows contractors to devise and install customised switching solutions on site.
